## Quality Features Of All International & Seaview Barbeques

All Lifestyle barbeques share the same premium quality features

- \* Australian designed and manufactured
- \* 25 year warranty on all stainless steel components
- \* Premium ASTM 304 stainless steel used throughout
- \* Designed to provide maximum heat output with efficient gas consumption to give excellent control over heat.
- \* Stylish Laser Etched control panel
- \* Flare cap system to diffuse heat and minimise flare ups
- \* Slimline hood rolls back to take up minimum space
- \* Easily removable warming rack system
- \* One touch ignition to all burners
- \* Sturdy trolley with 2-way lockable heavy duty castors (300kg capacity)

### Australian Designed & Manufactured

The Lifestyle range is designed and manufactured right here in Australia using the latest in computer design and 3-D modelling. The factory utilises fully automated computer controlled production equipment and the highest quality fabrication techniques.

### 25 Year Warranty On All Stainless Parts

Because Lifestyle barbeques are manufactured with a rigid structural design, and use premium 304G stainless steel on all barbecue panels, we can give you a 25 year Warranty on all stainless steel panels - not just the barbecue frame.

### Commercial Grade Stainless Steel

Constructed from commercial grade 304G stainless steel, a Lifestyle barbecue is a "no gimmicks" premium barbecue. What do we mean by this? All our panels are 304 grade stainless steel, not just one or two. Don't be misled by cheap imitations.
